Several Committeemen Desirous of Haskell Resigning.

New York, Sept. 24.—No action will be taken by the Democratic National committee in reference to the charges that have been made against Governor Haskell, pending investigation of the matter being made by Mr. Bryan. Meanwhile national committeemen here are expressing the hope the treasurer will resign from the committee unless he can clear himself of every particular of the charges made concerning him. The committee definitely removed.

No Buying or Selling.

Paragould, Ark., Sept. 24.—Deplorable conditions exist in this county.

There is no buying or selling of cotton as the result of recent agitation due to the appearance of night riders in the cotton-raising communities of Mississippi. Cotton gins have closed down and picking has stopped. Local merchants are transacting business on a cash basis as the result.

The agitation locally was started recently when a local Farmers' union adopted resolutions requesting cotton dealers to suspend business for a period of at least a week as a precautionary measure against the probability of night riders in this section of the county.

A group of men appeared at Bethel, south of Paragould. They were Ovid Willcoxson and several others. Their occupation and residence. The band has considerable excitement in the county and the situation is considered serious one.

HASKELL TO HEARST.

Governor of Oklahoma Addresses to Journalist an Open Letter.

Guthrie, Sept. 24.—Governor Haskell shortly before noon Thursday issued through the Associated Press an open letter to W. R. Hearst, taking the New York editor to task for his attitude in the present campaign. Governor Haskell discusses at length the issues of the campaign.

"Mr. Hearst claims there is a necessity for a new party, and says that the Democracy of Oklahoma, in framing its constitution and the acts of first legislature, covered everything Hearst recommended." He calls upon Hearst to observe that the southwest actually does things while "you are devoting your life simply to talking about what might be done."

Continuing, the governor says: "In Oklahoma we believe the organization of labor is indispensable in elevating humanity and protecting the toll. We want respect for these toll. to be a part of the education hood and practice. Therefore we have the union mon

The Hearst party is having a hard time getting respectable men to allow the use of their names to fill out the ticket. Six of the candidates whose names were filed in Kansas have served notice of their withdrawal.

Gov. Sheldon of Nebraska, just nominated by the Republicans for re-election, has declared emphatically in favor of State insurance of bank deposits, in spite of the fact that the convention which nominated him turned the proposition down.

IMPERIAL OPERA COMPANY
Will Play Bryan for Four Nights
Conditionally.

Manager John B. Mike of the Bryan Grand Opera House has received a letter from the American Theatrical Exchange to the effect that the Imperial Opera Company can be secured for Bryan on October 14, to play a four nights' engagement. The Imperial Opera Company carries thirty-five people, and is rather a big thing; it is so big, in fact, that a four nights' engagement, ordinarily, could not be considered either by the management of the house here or the company manager, and for that reason son Mr. Mike is endeavoring to place a sufficient number of tickets in advance of the engagement to insure the coming of the company. In order to do this he will charge a price of \$3 for a reserved seat for the season, or two reserved seats for the engagement for \$5. He will require the entire amount for the season to be paid at the time the order is placed—he simply requires a deposit for the payment of the balance on the first night of the show. He promises to refund the money on season tickets paid for in advance after the first performance. The company the holder is negotiating with the show. Usual prices are charged except for season seats which are purchased.

The Imperial Opera Company, stated, carries a large number of people, they have been successful in many cities and will give a first-class view.

BACK FROM ALABAMA

Mr. Harris Returns With Souvenirs of His Trip.

Mr. W. W. Harris, for thirty-five years telegraph operator here for the H. & T. C. railway, has returned from a fortnight's vacation spent at his boyhood home in North Alabama. Mr. Harris brings with him some mementoes of his visit. From the top of Lookout mountain in Tennessee he cut a path from a chestnut tree with a cluster of the nuts enclosed in their prickly husks. He also showed his friends specimens of scaly bark, chinquapins and beech nuts, which grow wild on the lands of the ancestral estate. Mr. Harris enjoyed his visit immensely, and notes much progress and improvement making in all sections visited on the trip.

FIRE IN THE COUNTRY

Two Hundred Dollars Damage to the Bond Home at Prospect.

Fire came near destroying the residence of Mrs. S. A. Bond, in the Prospect community, situated some 10 miles north of Bryan, Thursday morning at 3 o'clock.

The fire and its consequent damage resulted from placing ashes, in which there were live coals, in an ash box and leaving the box in the house. The dining room and kitchen were destroyed, entailing a loss of some \$200. No insurance was carried.

Through the heroic efforts of Mrs. Bond's sons, Tom and Ashley, the flames were gotten under control and the largest portion of the house was saved.

NO WONDER THERE'S A VACANCY

In the bulletin book at a local railway station is pasted the following memoranda:

Mart—All train men: This is to advise you that we must have 705 reports covering accidents that demand them within at least three days after accident occurs. We are going to quit taking this matter up by letter. It is just as necessary for you to send in 705 reports and you must send them in without us having to write for them.

Immediately following this bulletin is another announcing a vacancy on this run for one brakeman and requesting those who are in line for same and want the run to apply within ten days.

In District Court.

Four pleas of guilty to burglary charges were recorded in the District Court yesterday. In each case the delinquent was given two years. Since there were only two defendants, each drew four years as a punishment for his error. These same young men were convicted in Belton, Caldwell, and Waco on similar charges, and adding the Brazos county term to those already given, makes a total of twenty-three years each will be required to serve in the penitentiary as punishment for their mistakes.

TAFT'S TOUR.

Republican Candidate Spends Second Day in Wisconsin.

Chicago, Sept. 24.—Wearing a straw hat and overcoat W. H. Taft left Chicago Wednesday night on the Chicago and Northwestern railroad for the go and North second day of the presidential campaign. He was fatigued after a busy day in the evening and Mr. Taft was nevertheless happy and well, and he fell into a sound sleep before the train was outside the city limits.

Mr. Taft arrived at Beloit, Wis., at 8:30 o'clock Thursday and addressed the students of Beloit college and citizens of the town. Five minute speeches were made at Janesville and Evansville, Wis., during the forenoon on the way to Madison, where he remained ninety minutes.

From Madison Taft's train headed for Milwaukee. On its way to that city the train stopped for five minutes at Waukesha and for twenty minutes at West Allis, where he situated the shops of Allis-Chalmers company. Five minutes were also spent at Racine.

A large crowd gathered at the Beloit station to greet the Taft party. Mr. Taft was introduced by Congressman Cooper of Racine. He talked particularly to laboring men recited what the Republican party had done for labor, promising to continue favorable legislation of elected president.

Expelled From Exchange.

New York, Sept. 24.—A. O. Brown and Lewis Ginter Young, stock exchange members, of the suspended firm of A. O. Brown & Co., have been expelled from the New York stock exchange.

Forest Fires Checked.

Cadillac, Mich., Sept. 24.—A heavy rainfall in this vicinity has checked the forest fires which have caused damage estimated at over \$1,000,000.

A Danger That Threatens.

There is a danger menacing Texas today greater than flood losses or forestry waste. The danger is in the introduction of insect pests into Texas from outside nurseries. From a recent reading of State Inspector Dixon's report to the Commissioner of Agriculture, we are glad to see that a note of warning has been sounded. However, this warning, as the it is, will be of little value if it sleeps on in the fancied security of ignorance, as she did in the case of the boll weevil. The day Mr. Dixon, who is a competent authority, calls attention to that threatens the orchards with absolute extermination scientifically combated and cut without delay. The scale is the insect pest to which Dixon refers and which have secured lodgment in Brazoria, Calhoun, Camp, Colorado, Comal, Comanche, land, Erath, Fayette, Galveston, Harris, Harrison, Hill, Jasper, Kaufman and counties. The San Jacinto deadlier men than Texas than
